CLEVELAND IS ELECTED!

The Official Count Completed an the Suspense Over.

Now May You Pay Your Bills—Use Press Comments—Dorsey on the Political Situation—McDonald for Attorney General.

NEW YORK, Nov. 15.—2:30 P. M.—The count of the electoral vote of the country, by the official canvass, has just been completed. George Blaine acknowledges Cleveland's plurality in the county to be 43,100. This will make Cleveland's plurality in the State about 11,000.

NEW YORK, Nov. 15.—4 P. M.—The count of the electoral vote of the country, by the official canvass, has just been completed. The result can not be published just yet, because three Assembly Districts, the Seventh, Ninth, and Thirteenth, can not be included, owing to the fact that the returns from some of their election districts have been sent to the Committee of Corrected Returns on account of discrepancies. Cleveland, however, is elected, and that settles it.

NEW YORK, Nov. 17.—The Board of Commissioners to-day went along rapidly in counting the electoral votes in the election.

The Fifteenth, Sixteenth, and Seventeenth Assembly Districts showed only trifling errors. In the Eighteenth Assembly District Blaine gained twenty-seven votes in the first election district. In the third election district, Cleveland's vote, as published, was 313, the correct footing giving him 213. Cleveland's loss was 100 votes. The Sixteenth election district showed a big mistake in the published returns, having given Cleveland 1,200 votes, while the county clerk's and supervisor's returns gave him 212 votes, and not even canvassed.

The Eighteenth Assembly District was completed by 1 o'clock, the canary having given Blaine up to that hour on his canvass, had gained 1,270 votes, and Cleveland 300 votes over the previous return.

NEW YORK, Nov. 15.—The canvass proceeded rapidly yesterday. In the Eleventh District, George Washington, and Thomas Jefferson each received one vote for electors. At the Eleventh was finished, and the Board adjourned for lunch. When it resumed Supervisor Kirk offered the following:

"Resolved, That the Board proceed with the canvass of the electoral vote and complete and declare the said vote before calling a meeting of the people regarding the Court-house, and for the removal of all records to be removed until the alleged election frauds are investigated et al. Trouble is feared."

LOUISVILLE, Ky., Nov. 17.—A dispute reolved last night from Harrington, the county seat of Lincoln County, state that forty negroes were gathered around the Court-house, and among them was Steve Elkins once bought with title deeds to California, county land grant from Mexico for a shotgun, and later, having got up the gun, they were forged, so as to fit the county clerk's and supervisor's barrels. Blaine gained 212 votes, and not even

THE DAILY BULLETIN.
SATURDAY EVENING, NOV. 17, 1884.

STONE's majority over Oscar Turner in the First district is 3,003. So we had resuscitated Democrats in the first as well as in our own district. The cranks who fight the regular nominees ought always to be remembered and punished.

The New York Sun did all it could by its advocacy of the cause of that old humpback Ben Butler, for the Presidency, to help Blaine along, but since the election it has given no countenance to the ridiculous attempts of the Republican managers, by charges of fraud, false count, etc., to throw doubt upon the result. It has all along maintained that Cleveland and Henricks were elected, and is now, no doubt, striving to re-instate itself in Democratic confidence, which will be very hard to do. Men who once betray the Democracy are not soon forgotten.

The Hon. John W. Stevenson, of Covington, Ky., is favorably spoken of as Attorney General under the new Democratic administration of Grover Cleveland.

The Hon. Thomas L. Jones, of Newport, Ky., is also favorably spoken of by the press as a proper person to fill the place of Postmaster General.

Both of these gentlemen are eminent favorites of Kentucky, and as the claims of Kentucky to a cabinet position are as strong as those of any other western State, either of these gentlemen would make a most acceptable appointment, not only with the Democracy of Kentucky, but with the people of the whole country.

Getting Sam. Randall Out.

We publish elsewhere Colonel Waterson's program for the new Cabinet. He wants to make Sam. Randall Secretary of the Navy, so as to get him out of Congress and give the Democratic free traders full swing there.

Other followers of the Hon. John Griffin Carlisle have likewise manifested a willingness to see Mr. Randall removed from the House of Representatives; and some of them even go the great length of proposing that Cleveland should make him Secretary of the Treasury.

But suppose Mr. Randall should not like this programme. Suppose he should wish to stay in the House of Representatives, where he has made his place, and where he would more power than any other individual member.

In the Cabinet Mr. Randall would be only a head clerk to Mr. Cleveland. In the House of Representatives he is a great figure on his own account.—New York Sun.

A Bugaboo.

Mr. B. F. Jones, the ablest chairman of the National Republican Committee, has no better sense than to say since the election, that "the Southerners had always believed they were robbed of their slaves by emancipation and there was every reason to believe they would seek reparation as soon as they were in power."

It is a common belief of many Southerners that they were robbed of their slaves not so much because slavery was considered wrong, as because the liberation of the slaves, and their endowment with the elective franchise, was believed would promote the political power of the Northern States; but not a Southern man who lived and lost his slaves by emancipation, now hopes to be repaid for them. Mr. Jones seems to forget that the campaign is now over, and that there ought to be an end to the ridiculous bungling with which Blaine and his managers sought to delude and carry the public mind in favor of their continuance in the possession of the Government.

It's a pity that we failed to redeem the Ninth District, so that we might have had a solid Democratic delegation in the next Congress; but the Democrats of the Ninth achieved a victory in reducing the Republican majority to almost nothing. The count shows that Mr. Wadsworth only got in by the skin of his teeth, his majority being one hundred and two votes. He was perhaps the strongest, and certainly one of the ablest Republicans in that case of the State, so it required a great effort to pull him through. His refusal to vote for the negro Asbury, while it lost him some negro votes, was an advantage to him in other quarters—many persons believing that he had sympathies in common with Democrats upon some issues. He has served creditably in Congress, and his experience will be of advantage in the coming term. His power to do harm will not be very great, while we have ten good Democrats to watch and keep him in order. His predecessor, Mr. Culbertson, was a more pronounced partisan, but a very clever fellow, and did no material damage except in the matter of regulating appointments in Kentucky to suit his extreme views. Mr. Wadsworth will not care so much for that kind of business, and will not be likely to undertake it with a Democratic administration.—Frankfort Yeoman.

CAPTAIN EADS' SHIP RAILWAY.
A Remarkable Working Model on Exhibition in New York.

New York, Nov. 17.—In a basement room in the rear of the Library and Newark streets, there is on exhibition a working model of the necessary apparatus for the Eads Ship Railway. Constructed in London at a cost of \$10,000, it is a remarkable piece of machinery, and is now accepted as a creation of E. L. Corbin, a ship engineer of interest. It comprises a ship model about six feet in length, the pontoon and apparatus for lifting the ship and the carriage upon which it rests out to the water to a level with the pierhead, with about twenty feet of permanent way, and a floating turntable which is to take the place of an ordinary curve. Owing to the length and righting moments of the model, no curve of a radius under twelve miles is possible. There will have to be in consequence five of these floating turntables where change of direction greater than the permanent curvature is to be made. The whole has been finished in time for the truck, which bears four wheels to the truck. Each truck receives its portion of the load, which will never exceed twenty tons, and the maximum weight of the carriages which are each capable of a load of twenty tons with a depression of six inches.

A liberal estimate places the cost of the entire enterprise at \$45,000,000. A few of the difficulties which the designer had to overcome were to find a way to support a ship, with or without its cargo, has the greater part of its weight suspended. It would be impossible to construct any carriage of sufficient rigidity to transmit this weight to the truck, so the idea was born that it should be supported by the truck. Thus the wheels at either end, under bow and stern, would bear but little of the burden, while those in the middle would be crushed. To counteract this weight of the ship while on the turntable, a system was adopted by a system of hydraulic jacks, while as the center of the turntable approached the number increases until there are five. The total area of the turntable is 1200 square feet. The jacks are supplied by a pump which is supplied by one force pump the pressure is equal upon each lined foot of the carriage; according to the law of hydrostatics that pressure on a liquid is transmitted equally in all directions. The difficulty is that it is impossible to locate exactly the center of gravity of a ship by calculation, and even after an accurate location of that point it would be difficult to bring it directly over the center of gravity of the turntable. The difficulty is further increased in that the center of gravity of the ship is not in the same vertical line the pontoon will tip when floated, the guides will bind and everything will come to a standstill. To prevent this there are ingeniously provided four counterpoise jacks, one on each corner of the pontoon, the one at the diagonally opposite corners being connected, which will equalize the weight and absolutely compel the pontoon to preserve an erect position. After staying two weeks in this city the model will be removed to the New Orleans Exhibition.

VICTORIA'S WOES.
Moroni's Daughter to be Enjoined from Opera Singing.

New York, Nov. 17.—Giovanni Morelli, the father of Mrs. Huskisson, declared today he had obtained a court injunction forbidding a singer against a highly named Bailey, to sing in America. The singer, who is to appear in New York on the fourteenth, is the one in the pontoon, the one at the diagonally opposite corners being connected, which will equalize the weight and absolutely compel the pontoon to preserve an erect position. After staying two weeks in this city the model will be removed to the New Orleans

Exhibition.

Go on, good boy, and swing your hat
And still keep up the shout;
We horned Democrats
Have turned the rascals out.
—Frankfort Yeoman.

The steamer Hattie Brown left for Ashland Saturday night to bring down a tow of coal.

The Uniform Patriarchs of the Odd Fellows meet at their Hall to-night, and a full attendance is desired as business of importance will be before them.

There is great complaint among the farmers of this country that their crop of small grain is being eaten up by the fly. Many of them think one-half the present crop is already destroyed. Mr. Caldwell, of Washington, is now re-sowing his wheat, hoping to get a partial yield.

The churches were all largely attended yesterday, the day was pleasant and the presidential excitement over, and the people feel joyous and happy, hence the churches were all full, both morning and evening, "go thou and do likewise," so we say to all the people in all the land.

It will be very hard upon the revenue officers who have soon to catch up their duds and make tracks out of office, to know that in betting upon "the plumed knight," they have lost all the money they saved from their salaries for the last year and more. To lose both money and office, will be a calamity with some hard to bear.

The Democrats of Lewis County had a grand jubilation, on Saturday night last, over the election of Cleveland and Hendricks, and to add to the exhilaration of the occasion news came by telegraph, that the count had ended, and the result showed that Cleveland's plurality was found to be 1,147. Several eloquent and patriotic speeches were made and the occasion passed off altogether most pleasantly.

At the earnest solicitation of a number of leading citizens, Messrs. Chamberlain and Ruth will soon commence a class of vocal instruction. Lists for subscribers may be found at the stores of G. W. Blattnerman, Harry Taylor and the office of the Morning Call. As Mr. Chamberlain is a gentleman who has spent the greater part of a half century in the capacity of public instructor, and Mr. Ruth, through a younger man, is a fine basso and an excellent pianist, there is no reason why our people should withhold their patronage. Their presence here fills a long-felt want.

At Farewell Hall, last evening, Philip Phillips, the "Singing Philistine," gave a unique performance, dressed in black and his style. "Around the World in a Chariot of Song." Mr. Phillips has traveled extensively in all parts of the globe, and last night he gave an account of a large number of places he had visited, illustrating his narrative with numerous illustrations, generalities well-selected, interesting and interesting illustrative songs, sung in his own peculiar and pleasing way. The audience last night was quite large, and, judging from the frequent and hearty applause, it seemed to give infinite satisfaction in this cheap, easy and novel way of "seeing the world." —[Chicago Daily Times.]

Mr. Phillips will appear this and tomorrow evening at the Third Street M. E. Church.

It appears that Wadsworth beats Powers in the Greenup, Ky., election by the hand. Still Powers' claims could not be settled as to how many other places in the district, there should be a fair count. —Portsmouth Times.

Wadsworth's official majority is only about one hundred, and two as reported; but there were enough errors in all the counties, some such as above, or thus, when the polls were opened and closed at such hours as were not authorized by law, the purchase of votes, and where the judges had disqualified themselves by betting on Wadsworth's success, as to make it quite certain that Mr. Wadsworth would not be allowed to take his seat if a contest is made.

DEMOCRATIC talk about the thugs and thieves who acted as Deputy United States Marshals at the election in Cincinnati in October, has been quiet since the November election, when Hamilton County doubled the Republican majority won here in October.—Lexington Nation.

Yes, Democratic talk has ceased, but the memory of that disgraceful employment of Government revenue officers, as Deputy Marshals at Cincinnati, is still alive and will continue fresh as long as any of that breed of Republicans continue to hold federal offices. The things and thieves who acted as Deputy Marshals, to terrorize and bulldoze the Democratic voters at Cincinnati, had better be a little modest now, for it may not be long before the gullotine which is whetting now for some of their nests, will be performing its just work.

Fire.

About half-past eleven o'clock last night a fire broke out in the frame building on Second street, occupied by Watson & Co. and James T. Kackley, which for a moment bid fair to be disastrous. It is supposed to have been either the work of an incendiary or the result of a defective flue, though no fire is believed by many to have been in the house yesterday or last night. The roof was instantly all in a flame, and but for the prompt and efficient services of our firemen and the admirable facilities of the city water works, the whole square would have been destroyed. It was in the very centre of the business part of our city and if not so speedily arrested great destruction would have ensued to valuable property. The buildings belonged to Dr. William H. McGranahan and were insured in the London and Lancashire Company to the sum of \$2,000.

The stock of Watson & Co. was insured at the sum of \$5,200, which it is believed will cover the loss. The stock was insured in the Liverpool, London and Globe Company for \$3,000, and in the Lancashire Company at \$2,200.

The photographic stock of James T. Kackley was valued at \$10,000 and was insured in the following companies as follows:

Obituary.

A debate between Rev. J. S. Kendrick, of the Christian Church, and Rev. J. W. Fitch, of the M. E. Church, South, Kentucky Conference, will begin at Tollesboro, Ky., Wednesday, November 19th, and continue for eight days. The following propositions will be discussed: 1. The baptism instituted by the Lord Jesus Christ is immersion. (Kendrick affirms.) 2. Infant baptism is valid in the holy scriptures. (Fitch affirms.) 3. Baptism to the believing penitent for the remission of past sins. (Kendrick affirms.) 4. In regeneration or the new birth the holy spirit operates directly and immediately upon the person regenerated or born again. (Fitch affirms.) The public is cordially invited.

The rush out of office by the Republicans will be quite as great in a short time, as the rush for office by the democrats. The result of the official canvass of the vote of New York is now determined and well known, but it upsets no calculations so much as it does the calculations of the Republicans in office, who have been hoping to find some mistake or error, or pretence, upon which they could claim the淳ton majority.

The dash for office by the democrats on that Cleveland is elected has already commenced. Wait a while, gentlemen! There is plenty of time, and besides, the result of the official canvass of the vote of New York may upset all of your true calculations.—Lexington Nation.

The result of the official canvass of the vote of New York is now determined and well known, but it upsets no calculations so much as it does the calculations of the Republicans in office, who have been hoping to find some mistake or error, or pretence, upon which they could claim the淳ton majority.

Title-de-fact of Frank Powers is the only bright spot in the Kentucky election. He deserved an election, and the result shows that a determined effort would have easily given it him.—Frankfort Capital.

A very determined effort was made to elect him, and a very large democratic vote was cast in his favor, but all this could not overcome the negro vote imported into the district for Wadsworth, the money and bribery made use of by Wadsworth's friends, and the treachery of a few democrats who profess to follow the lead of a few cranks who profess democracy but do not practice it.

The Republicans of Washington City were allowed to take the U. S. Military Band to celebrate the Republican victory in Ohio in October last; but when the Democrats applied for it to celebrate the victory the people of the country achieved in the election of Grover Cleveland to the Presidency, Mr. Lincoln, the Secretary of War, refused to let them have it. This shows that Mr. Robert Lincoln is a much smaller man than honest old Abe, his father.

The Illinois Legislature is said now to be Democratic, and away goes John A. Logan from the United States Senate.

A Democrat will take his place after the fourth of March next. It is also said Riddleberger, of Virginia, has cut loose from Gen. Mahone. If things continue to move in this line it will not be long before the United States Senate will be Democratic.

Miss Sallie Daugherty, who has been very ill is rapidly recovering.

An Honest Man.

(Cincinnati Advertiser.) It was not Cleveland's overwhelming intellect that elected him; it was not his brilliancy, nor his magnetism, nor his personal popularity, nor his stern integrity. Cleveland's election gives the lie to the charge that we are a nation of rascals.

Letter From Texas.

BRENTON, TEXAS, November 9, 1884.
Editor Bulletin: I was a guest to-day at Henry Harrison, Esq., of this place, and at dinner given in connection with the anniversary of the marriage of Judge James E. Shepard. Miss Martha Antrepreneur, of Flemingsburg, Kentucky. The occasion was interesting, most pleasant and agreeable, and worthy of note for the reason that Judge James E. Shepard and I were schoolmates at Oxford, Ohio, aged respectively fourteen and fifteen years. It is not often that schoolmates after a separation of fifty years are brought together again from the scenes of their boyhood and at a feeble hearing. Almost grown representatives of a third generation, as in this instance, represented unto James Shepard and wife. Passing from Mr. Harrison's, I visited Hon. Clancy B. Shepard, whose son was President of the United States. The Shepards are noted among the most eminent and distinguished men in Texas, and Colonel Seth Shepard, son of C. B. S., is the superior of all in his size in the State as a lawyer and orator.

Yours truly, S. A. [Signature]
